# Kelly Lynch

I believe myself to be a mature, well-rounded, motivated, hard-working person with a good sense of humour and a great personality. I have over 13 years experience working within the creative industry and as a freelance multimedia designer.

For the past 7 years, I have had the privilege of living in the UK, developing my skills, working in design and marketing. I am returning to my roots in Christchurch, NZ permanently in August. This transition marks a new chapter in my creative journey closer to home.
